Response to Amendment

In view of Applicant's amendment filed the 2nd of August 2004, claims 2-6, 15, and 23 are allowed noting the reasons indicated by the Examiner in the page 4 of the Office Action mailed the 7th of July 2004 and as stated below.

Examiner's Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Referring to claims 2-6, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, changing a lightness component of a color value such that an upper surface of the first gamut in the CMY color space is preserved and a lower surface of the first gamut in the CMY color space is mapped to a bottom surface of the gamut of a CMYK color space to form an expanded gamut in the color space having a lightness component.

Referring to claims 15 and 23, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, changing a lightness component of the CIELAB space gamut to form an enhanced CIELAB space gamut by linearly rescaling the lightness component of the CIELAB space gamut by computing a rescaling factor that is a function of three lightness points (i.e., one lightness point located on the top surface of the CMYK gamut and the other two lightness points located on the bottom surfaces of the CMY and CMYK gamuts).
